38. Institutional practices such as decentralization and participative management

Rammohan College follows the practice of decentralization and participative management in academics, administration and extra-curricular activities. The GB is headed by the President, Govt. Nominees, and Members of the Higher education council, University Nominee, Principal, three Teachers' representatives, one non-teaching representative and one student representative. The GB looks after the strategic level issues related to quality of education, management and consultancy. The Principal works on the advice and active co-operation of the IQAC, Teachers' Council Secretary and different sub-committees delegated with distinct responsibilities.

Decentralization in academic matters

1) The IQAC proposes different policies for quality improvement in teaching-learning

2) An active role is also played by the Teachers' Council. It discusses different academic issues like examination, result consideration, attendance etc.

3) The Admission Committee and the Academic Sub-Committee conjointly shoulder the responsibility related to admission. The Routine Committee prepares the timetable by co-ordinating with each of the department. The Library Committee looks after the purchase, subscription, maintenance and upgradation of library facilities. The Sports Committee organizes Annual Sports.

4) The Departmental Head of each department maintains liaison with the Principal and other members of the departmental faculty.

39. Implementation of e-governance in areas of operation

E-governance area	Details
Planning and Development	As per the decision of management, planning has been prepared for proper e governance and development. the administrative management decision has been taken for step by step up gradation of office and management.

AIDS awareness programme	01/12/2018	25

42. Describe two best practices successfully implemented by the Institution

- **Raja Rammohun Roy Memorial Museum**

1. Title of the Practice: Spread of Cultural Heritage: Rammohan Roy Memorial Museum [started in 2009-2010 and is a continuous process]

2. Objectives of the Practice: Raja Rammohan Roy (1772-1883), the great scholar, reformer and a leading figure in the 19th century Bengal Renaissance attempted to inspire and modernize contemporary Indian society through social and educational reforms, particularly directed to the emancipation and empowerment of women. His adoption of the basic tenets of Sanatan Dharma gave rise to the Brahmo religion and Brahmo educationists played a significant role in educating and reforming society.

3. The context: The Museum was inaugurated on 22nd May 2009. The Govt of West Bengal and the Ministry of Culture, Govt of India have rendered financial assistance for the promotion and development of the museum. The Museum has also received financial assistance from the M.P.Lad fund.

4. The practice: Rammohan College acquired, renovated and restored the family residence of Raja Rammohan Roy at 85A, Raja Rammohan Roy Sarani, Kolkata 700009 for the purpose of converting the building into the Raja Rammohan Roy Memorial Museum. The Kolkata Municipal Corporation declared it as a heritage building.

5. Evidence of success: The Museum is dedicated to the social reformer Raja Rammohan Roy. There are six segments in the Museum – commemorative items, books, paintings and sketches, period furniture, panels and dioramas and death mask of Rammohan. Folder, picture post card, DVD, CD produced and published by the Museum are on sale from the Museum Sales Counter. The West Bengal Tourism Department has included the Museum in their City Tour. The Museum is regularly visited by the students of Rammohan College as well as by students of other colleges. MOUs with Victoria College, Vidyasagar Women's College and Bagbazar Women's College have been undertaken, to arrange for visits to the Museum.

6. Problems encountered and Resources Required: Financial Assistance is needed for expansion works including the setting up of galleries. Staff shortage is required to be settled. To protect the exhibits the Museum requires a centrally air-conditioned set-up.

- **Medicinal Plant Garden**

1. Title of the Practice: Medicinal Plant Garden [started in 2010-2011 and is a continuous process]

2. Objectives of the Practice: The Medicinal Plant Garden displays more than 80 medicinal plants of our country with their vernacular name, scientific name, parts used and major medicinal uses. The major objective is to expose the students to the medicinal plant wealth of our country, which is one of the mega-diversity centres of the world.
3. The Context: Medicinal plants are mentioned in the Rig Veda, the oldest document, composed about 3500 years ago. The plants have been the chief source of drugs used in treatment of various ailments. India is a repository of innumerable medicinal plants of immense value.
4. The Practice: More than 80 medicinal herbs and shrubs are grown in the garden. Periodically we arrange awareness programmes to motivate the students of different streams regarding the medicinal importance of plants, how to grow and propagate them and how one can easily identify them.
5. Evidence of Success: The display of Medicinal plants. Encouraging the students to develop the skill of precious identification of medicinally important plants. Our students have developed the skill. Most of the students grow a few medicinal plants in their kitchen garden or on the terrace.
6. Problems Encountered and Resources Required: Funds are required to procure more medicinal plants as well as for the maintenance of the garden. Another major problem is the lack of a skilled gardener cum plant scientist (phytologist) to add to the usefulness of the medicinal plant garden. At present, the teachers of the different departments, along with a gardener, take care of the garden, to the best of their ability.
